“Chickeater Joe (he’s one of your lower-ranking demigods) invented the Diddley Bow to save rock’n’roll, but he couldn’t find anybody to play it except these wastrels from Vienna. Luckily they were up to the task. Now let’s bask in the glorious sounds of victory.”

[Ken McIntyre - Classic Rock Magazin UK # 212](#)

“Fairtrade Floyd have started their musical journey off on the right foot with their straight forward style of Rock. They don’t use over-played, old Occult Movie clips of naked chicks from the 70’s, they get their OWN!!!“

[Matthew Thomas - Taste Nation LLC](#)

“Rakouská kapela, která vzniká teprve v roce 2014, má na kontě oficiální EP “In Money We Trust“ a vyznačuje se především využitím jednostrunného nástroje zvaného “Diddley Bow“. V březnu se poprvé představila také v Praze.“
